

Vaccination UK

PROTECTION AGAINST

INFECTIOUS DISEASES.

Students in Year 9 are now being offered vaccines to protect against Diphtheria, Tetanus, Polio and Meningitis (DTP/MenACWY).

These are serious infectious diseases which can be fatal.

If you received a letter about these vaccines, you must complete the online e-consent form (one for each child) so your child can be vaccinated. If you need a paper consent form, please speak to your child's school. Vaccination UK will be visiting Newham schools offering the DTP/MenACWY vaccine from now until July 2022.

If your child has missed their school clinic, email newham@v-uk.co.uk or call 020 8214 1393/1935 for information on catch-up clinics located throughout the borough.
